Explanatory Statement ASA 540 *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*

Reasons for Issuing Auditing Standard ASA 540 *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*

The Auditing and Assurance Standards Board (AUASB) issues Auditing Standard ASA 540 *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures* pursuant to the requirements of the legislative provisions and the Strategic Direction explained below.

The AUASB is as an independent statutory board of the Australian Government established under section 227A of the *Australian Securities and Investments Commission Act 2001*, as amended (ASIC Act). Under section 336 of the *Corporations Act 2001* (the Act), the AUASB may make Auditing Standards for the purposes of the corporations legislation. These Auditing Standards are legislative instruments under the *Legislative Instruments Act 2003*.

Under the Strategic Direction given to the AUASB by the Financial Reporting Council (FRC), the AUASB is required to have regard to any programme initiated by the International Auditing and Assurance Standards Board (IAASB) for the revision and enhancement of the International Standards on Auditing (ISAs) and to make appropriate consequential amendments to the Australian Auditing Standards. The IAASB has undertaken a programme to redraft, and in some cases, revise, in “clarity” format, the entire suite of ISAs. Accordingly, the AUASB has decided to revise and redraft the Australian Auditing Standards using the equivalent redrafted ISAs.

Operative Date

ASA 540 *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures* is operative for financial reporting periods commencing on or after 1 January 2010.

Purpose of Auditing Standard ASA 540 *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*

The purpose of the Auditing Standard is to establish Requirements and to provide Application and Other Explanatory Material to auditors regarding their responsibilities relating to accounting estimates, including fair value accounting estimates, and related disclosures in an audit of a financial report.

Explanatory Statement ASA 540 *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*

Specifically, the Auditing Standard expands on how other relevant Auditing Standards are to be applied in relation to accounting estimates.

Main Features

This Auditing Standard:

- (a) establishes requirements and provides application and other explanatory material on auditing accounting estimates, including fair value accounting estimates;
- (b) requires the auditor to obtain an understanding of the entity and its environment to provide a basis for the identification and assessment of the risks of material misstatement for accounting estimates;
- (c) requires the auditor to design and perform audit procedures to respond to the assessed risks of material misstatement of an entity's accounting estimates;
- (d) requires the auditor to perform further substantive procedures in response to any identified significant risks;
- (e) requires the auditor to evaluate the reasonableness of accounting estimates, and their disclosure in the financial report; and
- (f) requires the auditor to obtain written representations from management about the reasonableness of significant assumptions used by it in making accounting estimates.

Preamble and Overall Objectives

ASA 540 is to be read in conjunction with ASA 101 *Preamble to Australian Auditing Standards*, which sets out the intentions of the AUASB on how the Australian Auditing Standards, operative for financial reporting periods commencing on or after 1 January 2010, are to be understood, interpreted and applied. ASA 540 is to be read also in conjunction with ASA 200 *Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Australian Auditing Standards*.

Process of making Australian Auditing Standards

The AUASB's Strategic Direction, *inter alia*, provides that the AUASB develop Australian Auditing Standards that:

Explanatory Statement ASA 540 *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*

- have a clear public interest focus and are of the highest quality;
- use the International Standards on Auditing (ISAs) of the International Auditing and Assurance Standards Board (IAASB) as the underlying standards;
- conform with the Australian regulatory environment; and
- are capable of enforcement.

In implementing the FRC's Strategic Direction, the AUASB has undertaken a process of revision and redrafting of the Australian Auditing Standards that has:

- updated the form, layout and content of the Australian Auditing Standards;
- addressed the legal enforceability of mandatory obligations;
- maintained clarity of the auditor's obligations;
- incorporated appropriate references to Australian laws and regulations;
- clearly identified, by use of the prefix "Aus", AUASB additions to paragraphs in the Requirements or the Application and Other Explanatory Material; and
- included other amendments as necessary.

Consultation Process prior to issuing this Auditing Standard

The AUASB has consulted publicly as part of its due process in developing the Auditing Standard. Exposure Draft ED 12/08 *Proposed Auditing Standard: Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures* (Re-issuance of ASA 540), was issued on 15 September 2008 with a 30 day comment period.

As an integral part of its consultation with the public, the AUASB sought comments on specific questions including:

- the completeness and accuracy of references in the Auditing Standard to relevant laws and regulations;

Explanatory Statement ASA 540 *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*

- the significant costs, if any, and benefits, of compliance with any additional Requirements under the Auditing Standard; and
- whether or not there exist any matters of public interest affecting the issuance of the Auditing Standard.

Submissions were received by the AUASB and these were considered as part of the development and finalisation of the Auditing Standard.

Regulation Impact Statement

A *Regulation Impact Statement* (RIS) has been prepared in connection with the redrafting of Australian Auditing Standards in Clarity format, including *ASA 540 Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*.

The RIS has considered both the expected benefits and expected costs of the introduction of clarified auditing standards, including comments provided by stakeholders during the redrafting process. It concluded that expected benefits to users of audit services, users of audit reports, auditors and the Australian economy in general are, on balance, likely to outweigh expected costs.

Main Differences from ASA 540 *Audit of Accounting Estimates* (April 2006) and ASA 545 *Auditing Fair Value Measurements and Disclosures* (April 2006)

The main differences between this Auditing Standard and the two Auditing Standards that it supersedes, ASA 540 and ASA 545, are:

1. Auditing Standard ASA 540 is written in the ‘clarity’ format using the equivalent International Standard on Auditing (ISA 540 *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*) as the underlying Auditing Standard. Consequently, the format, layout, and paragraph numbering styles are different from the extant Auditing Standard.
2. In accordance with normal updating practice, ASA 540 (using ISA 540 as the underlying standard) has been subject to a major revision in addition to redrafting in “clarity” format. The revision has resulted in an Auditing Standard that now combines the Requirements and guidance previously contained in two separate

Explanatory Statement ASA 540 *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*

Auditing Standards: extant ASA 540 and extant ASA 545. In ASA 540, the Requirements and Application and Other Explanatory Material paragraphs are either:

- (a) new paragraphs;
- (b) elevations of extant guidance paragraphs; or
- (c) rewording of extant paragraphs.

3. The following Requirements included in Auditing Standard ASA 540 are in part, or full, the main additional Requirements to the extant Auditing Standards:

- (a) “When performing risk assessment procedures ..., the auditor shall obtain an understanding of the following...:
 - The requirements of the applicable financial reporting framework relevant to accounting estimates, including related disclosures.
 - How management identifies those transactions, events and conditions that may give rise to the need for accounting estimates to be recognised or disclosed in the financial report. In obtaining this understanding, the auditor shall make enquiries of management about changes in circumstances that may give rise to new, or the need to revise existing, accounting estimates.
 - How management makes the accounting estimates, and an understanding of the data on which they are based, including:
 - The method, including where applicable the model, used in making the accounting estimate;
 - Relevant controls;
 - Whether management has used an expert;
 - The assumptions underlying the accounting estimates;

Explanatory Statement ASA 540 *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*

- Whether there has been or ought to have been a change from the prior period in the methods for making the accounting estimates, and if so, why; and
 - Whether and, if so, how management has assessed the effect of estimation uncertainty.” (Ref: Para 8)
- (b) “...the auditor shall determine:
- Whether management has appropriately applied the requirements of the applicable financial reporting framework relevant to the accounting estimate;...” (Ref: Para 12)
- (c) “...in addition to other substantive procedures performed to meet the requirements of ASA 330... the auditor shall evaluate the following:
- How management has considered alternative assumptions or outcomes, and why it has rejected them...
 - Where relevant to the reasonableness of the significant assumptions used by management or the appropriate application of the applicable financial reporting framework...” (Ref: Para 15)
- (d) “If, in the auditor’s judgement, management has not adequately addressed the effects of estimation uncertainty on the accounting estimates that give rise to significant risks, the auditor shall, if considered necessary, develop a range with which to evaluate the reasonableness of the accounting estimate.” (Ref: Para 16)
- (e) “The audit documentation shall include:
- The basis for the auditor’s conclusions about the reasonableness of accounting estimates and their disclosure that give rise to significant risks; and
 - Indicators of possible management bias, if any.” (Ref: Para 23)

Explanatory Statement ASA 540 *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*

4. Significant Application and Other Explanatory Material, linked to the additional obligations listed at 3. above, is also included in the Auditing Standard.
