ASA 805 Single Financial Statement	Extract	Initial Suggestion	Disposition
Aus A2.1	ASA 200 defines the term “financial statements” as a structured representation of historical financial information, including disclosures, intended to communicate an entity’s economic resources or obligations at a point in time or the changes therein for a period of time in accordance with a financial reporting framework. The term “financial statements” ordinarily refers to a complete set of financial statements as determined by the requirements of the applicable financial reporting framework but can also refer to a single financial statement. Disclosures comprise explanatory or descriptive information, set out as required, expressly permitted or otherwise allowed by the applicable financial reporting framework, on the face of a financial statement, or in the notes, or incorporated therein by cross-reference 11. As noted in paragraph 6(c), reference to a single financial statement or specific element of a financial statement includes the related disclosures.	Remove. ISA 200 definition of financial statements is the same as Revised ASA 200 para 13f definition. Aus para no longer needed. At the 25 November 2014 AUASB Meeting, in the context of a preliminary discussion around the auditor reporting project, the AUASB agreed to abolish the requirement.	At the 22 February 2016 AUASB meeting, the AUASB confirmed deletion of this paragraph.
