PREFACE

Reasons for Issuing ASRS 4400

The AUASB issues Standard on Related Services ASRS 4400 *Agreed-Upon Procedures Engagements* pursuant to the requirements of the legislative provisions and strategic direction explained below.

The AUASB is a non corporate Commonwealth entity of the Australian Government established under section 227A of the *Australian Securities and Investments Commission Act 2001*, as amended (ASIC Act). Under section 227B of the ASIC Act, the AUASB may formulate assurance standards for other purposes.

Under the strategic Direction given to the AUASB by the Financial Reporting Council (FRC), the AUASB develops auditing and assurance standards other than for historical financial information. The AUASB uses the standards of the International Auditing and Assurance Standards Board as a base on which to develop standards and incorporates additional requirements considered to be in the public interest. Accordingly, the AUASB has decided to issue ASRS 4400 using the equivalent International Standard on Related Services ISRS 4400 *Agreed-Upon Procedures Engagements*.

Main Features

This Standard on Related Services represents the Australian equivalent of the IAASB's revised ISRS 4400 *Agreed-Upon Procedures Engagements* and will replace the current ASRS 4400 *Agreed-Upon Procedures Engagements to Report Factual Findings* issued by the AUASB in July 2013.

This Standard on Related Services contains differences from the current ASRS 4400, which are detailed in the Explanatory Memorandum accompanying the ASRS 4400.

The main features of this standard include:

- a) Professional judgement — new requirements and application material on the role of professional judgement.
- b) Independence — new requirements and application material on disclosures relating to the practitioner's independence.
- c) Engagement acceptance and continuance considerations — new requirements and application material addressing conditions for engagement acceptance and continuance.
- d) Use of a practitioner's expert — new requirements and application material to address the use of the work of a practitioner's expert, including the practitioner's responsibilities when using the work of an expert.
- e) Agreed-upon procedures report restrictions — clarification that use of the agreed-upon procedures report is restricted to intended users identified in the agreed-upon procedures report.
- f) ASRS 4400 also addresses non-financial subject matters and includes new definitions, requirements and application material on written representations, recommendations arising from the performance of agreed-upon procedures engagements, and documentation.

AUTHORITY STATEMENT

The Auditing and Assurance Standards Board (AUASB) formulates this Standard on Related Services ASRS 4400 *Agreed-Upon Procedures Engagements* pursuant to section 227B of the *Australian Securities and Investments Commission Act 2001*.

This Standard on Related Services is to be read in conjunction with ASA 100 *Preamble to AUASB Standards*, which sets out the intentions of the AUASB on how the AUASB Standards are to be understood, interpreted and applied.

Agreed-Upon Procedures Engagements

The grey shaded materials relate to Australian Standard on Quality Control (ASQC) 1, *Quality Control for Firms that Perform Audits and Reviews of Financial Reports, and Other Assurance Engagements and Related Services Engagements*.

Application

Aus 0.1 This Australian Standard on Related Services (ASRS) applies to the performance of agreed-upon procedures engagements on financial or non-financial subject matters. (Ref: Para. A1–A2)

Operative Date

Aus 0.2 This ASRS is operative for agreed-upon procedures engagements for which the terms of engagement are agreed on or after 1 January 2022. (Ref: Para. A9) Early adoption of this ASRS is permitted prior to this date.

Introduction

Scope of this ASRS

1. This ASRS deals with:
 - (a) The practitioner's responsibilities when engaged to perform an agreed-upon procedures engagement; and
 - (b) The form and content of the agreed-upon procedures report.
2. [Deleted by the AUASB. Refer Aus 0.1]

Relationship with ASQCI¹

3. [Deleted by the AUASB. Refer Aus 3.1]

Aus 3.1 Quality control systems, policies and procedures are the responsibility of the firm. ASQC 1 applies to firms of assurance practitioners in respect of a firm's agreed-upon procedures engagements. The provisions of this ASRS regarding quality control at the level of individual agreed-upon procedures engagements are premised on the basis that the firm is subject to ASQC 1 or requirements that are at least as demanding. (Ref: Para. A3–A8)

The Agreed-Upon Procedures Engagement

4. In an agreed-upon procedures engagement, the practitioner performs the procedures that have been agreed upon by the practitioner and the engaging party, where the engaging party has acknowledged that the procedures performed are appropriate for the purpose of the engagement. The practitioner communicates the agreed-upon procedures performed and the

related findings in the agreed-upon procedures report. The engaging party and other intended users consider for themselves the agreed-upon procedures and findings reported by the practitioner and draw their own conclusions from the work performed by the practitioner.

5. The value of an agreed-upon procedures engagement performed in accordance with this ASRS results from:
 - (a) The practitioner's compliance with professional standards, including relevant ethical requirements; and
 - (b) Clear communication of the procedures performed and the related findings.

6. [Deleted by the AUASB. Refer Aus 6.1]

Aus 6.1 An agreed-upon procedures engagement is not an audit, review or other assurance engagement. An agreed-upon procedures engagement does not involve obtaining evidence for the purpose of the practitioner expressing an opinion or an assurance conclusion in any form. [Aus] Appendix 3 provides a table of Differentiating Factors between Agreed-Upon Procedures Engagements and Assurance Engagements.

Authority of this ASRS

7. This ASRS contains the objectives of the practitioner in following the ASRS, which provide the context in which the requirements of this ASRS are set. The objectives are intended to assist the practitioner in understanding what needs to be accomplished in an agreed-upon procedures engagement.
8. This ASRS contains requirements, expressed using "shall", that are designed to enable the practitioner to meet the stated objectives.
9. In addition, this ASRS contains introductory material, definitions, and application and other explanatory material, that provide context relevant to a proper understanding of this ASRS.
10. The application and other explanatory material provides further explanation of the requirements and guidance for carrying them out. While such guidance does not in itself impose a requirement, it is relevant to the proper application of the requirements. The application and other explanatory material may also provide background information on matters addressed in this ASRS that assists in the application of the requirements.

Effective Date

Objectives

12. The practitioner's objectives in an agreed-upon procedures engagement under this ASRS are to:
 - (a) Agree with the engaging party the procedures to be performed;
 - (b) Perform the agreed-upon procedures; and
 - (c) Communicate the procedures performed and the related findings in accordance with the requirements of this ASRS.

Definitions

13. For purposes of this ASRS, the following terms have the meanings attributed below:

Standard on Related Services ASRS 4400
Agreed-Upon Procedures Engagements

- (a) Agreed-upon procedures – Procedures that have been agreed to by the practitioner and the engaging party (and if relevant, other parties). (Ref: Para. A10)
- (b) Agreed-upon procedures engagement – An engagement in which a practitioner is engaged to carry out procedures to which the practitioner and the engaging party (and if relevant, other parties) have agreed and to communicate the procedures performed and the related findings in an agreed-upon procedures report. (Ref: Para. A10)
- (c) Engagement partner – The partner or other person in the firm who is responsible for the engagement and its performance, and for the agreed-upon procedures report that is issued on behalf of the firm, and who, where required, has the appropriate authority from a professional, legal or regulatory body.
- (d) Engaging party – The party(ies) that engage(s) the practitioner to perform the agreed-upon procedures engagement. (Ref: Para. A11)
- (e) Engagement team – All partners and staff performing the agreed-upon procedures engagement, and any individuals engaged by the firm or a network firm who perform procedures on the engagement. This excludes a practitioner's external expert engaged by the firm or a network firm.
- (f) Findings – Findings are the factual results of agreed-upon procedures performed. Findings are capable of being objectively verified. References to findings in this ASRS exclude opinions or conclusions in any form as well as any recommendations that the practitioner may make. (Ref: Para. A12–A13)
- (g) Intended users – The individual(s) or organisation(s), or group(s) that the practitioner expects will use the agreed-upon procedures report. In some cases, there may be intended users other than those to whom the agreed-upon procedures report is addressed. (Ref: Para. A10)
- (h) Practitioner – The individual(s) conducting the engagement (usually the engagement partner or other members of the engagement team, or, as applicable, the firm). Where this ASRS expressly intends that a requirement or responsibility be fulfilled by the engagement partner, the term "engagement partner" rather than "practitioner" is used.
- (i) Practitioner's expert – An individual or organisation possessing expertise in a field other than assurance and related services, whose work in that field is used to assist the practitioner in fulfilling the practitioner's responsibilities for the agreed-upon procedures engagement. A practitioner's expert may be either a practitioner's internal expert (who is a partner or staff, including temporary staff, of the practitioner's firm or a network firm) or a practitioner's external expert.
- (j) Professional judgement – The application of relevant training, knowledge and experience, within the context provided by this ASRS and relevant ethical requirements, in making informed decisions about the courses of action that are appropriate in the circumstances of the agreed-upon procedures engagement.
- (k) Relevant ethical requirements – Ethical requirements the engagement team is subject to when undertaking agreed-upon procedures engagements. These requirements ordinarily comprise the Accounting Professional & Ethical Standards Board (APESB)'s *Code of Ethics for Professional Accountants (including Independence Standards)* (APESB Code) together with national requirements that are more restrictive.
- (l) Responsible party – The party(ies) responsible for the subject matter on which the agreed-upon procedures are performed.

23. If the engagement partner obtains information that would have caused the firm to decline the engagement had that information been available earlier, the engagement partner shall communicate that information promptly to the firm, so that the firm and the engagement partner can take necessary action.

Agreeing the Terms of the Engagement

24. The practitioner shall agree the terms of the agreed-upon procedures engagement with the engaging party and record the agreed terms of engagement in an engagement letter or other suitable form of written agreement. These terms shall include the following: (Ref: Para. A39–A40)

Application and Other Explanatory Material

Application of this ASRS (Ref: Para. Aus 0.1)

- A1. Reference to “subject matters” in this ASRS encompasses anything on which agreed-upon procedures are performed, including information, documents, measurements or compliance with laws and regulations, as relevant.
- A2. Examples of financial and non-financial subject matters on which an agreed-upon procedures engagement may be performed include:
- Financial subject matters relating to:
 - The entity’s financial report or specific classes of transactions, account balances or disclosures within the financial report.
 - Eligibility of expenditures claimed from a funding program.
 - Revenues for determining royalties, rent or franchise fees based on a percentage of revenues.
 - Capital adequacy ratios for regulatory authorities.
 - Non-financial subject matters relating to:
 - Numbers of passengers reported to a civil aviation authority.
 - Observation of destruction of fake or defective goods reported to a regulatory authority.
 - Data generating processes for lottery draws reported to a regulatory authority.
 - Volume of greenhouse gas emissions reported to a regulatory authority.

The above list is not exhaustive. Additional types of subject matters may arise as external reporting demands evolve.

Relationship with ASQC 1 (Ref: Para. Aus 3.1)

- A3. ASQC 1 deals with the firm’s responsibilities to establish and maintain its system of quality control for related services engagements, including agreed-upon procedures engagements. Those responsibilities are directed at establishing:
- The firm’s quality control system; and
 - The firm’s related policies designed to achieve the objective of the quality control system and its procedures to implement and monitor compliance with those policies.
- A4. Under ASQC 1, the firm has an obligation to establish and maintain a system of quality control to provide it with reasonable assurance that:
- (a) The firm and its personnel comply with professional standards and applicable legal and regulatory requirements; and
 - (b) Reports issued by the firm or engagement partners are appropriate in the circumstances.²

² ASQC 1, paragraph 11.

Standard on Related Services ASRS 4400
Agreed-Upon Procedures Engagements

A5. A jurisdiction that has not adopted ASQC 1 in relation to agreed-upon procedures engagements may set out requirements for quality control in firms performing such engagements. The provisions of this ASRS regarding quality control at the engagement level are premised on the basis that quality control requirements adopted are at least as demanding as those of ASQC 1. This is achieved when those requirements impose obligations on the firm to achieve the aims of the requirements of ASQC 1, including an obligation to establish a system of quality control that includes policies and procedures that address each of the following elements:

- Leadership responsibilities for quality within the firm;
- Relevant ethical requirements;
- Acceptance and continuance of client relationships and specific engagements;
- Human resources;
- Engagement performance; and
- Monitoring.

A6. Within the context of the firm's system of quality control, engagement teams have a responsibility to implement quality control procedures applicable to the engagement.

A7. Unless information provided by the firm or other parties suggests otherwise, the engagement team is entitled to rely on the firm's system of quality control. For example, the engagement team may rely on the firm's system of quality control in relation to:

- Competence of personnel through their recruitment and formal training.
- Maintenance of client relationships through acceptance and continuance systems.
- Adherence to legal and regulatory requirements through the monitoring process.

In considering deficiencies identified in the firm's system of quality control that may affect the agreed-upon procedures engagement, the engagement partner may consider measures taken by the firm to rectify the situation that the engagement partner considers are sufficient in the context of that agreed-upon procedures engagement.

A8. A deficiency in the firm's system of quality control does not necessarily indicate that an agreed-upon procedures engagement was not performed in accordance with professional standards and applicable legal and regulatory requirements, or that the agreed-upon procedures report was not appropriate.

Operative Date (Ref: Para. Aus. 0.2)

A9. For terms of engagement covering multiple years, practitioners may wish to update the terms of engagement so that the agreed-upon procedures engagements will be conducted in accordance with this ASRS on or after the operative date.

A10. In some circumstances, the procedures may be agreed with intended users in addition to the engaging party. Intended users other than the engaging party may also acknowledge the appropriateness of the procedures.

A11. The engaging party may be, under different circumstances, the responsible party, a regulator or other intended user. References to the engaging party in this ASRS include multiple engaging parties when relevant.

Findings (Ref: Para. 13(f))

A12. Findings are capable of being objectively verified, which means that different practitioners performing the same procedures are expected to arrive at equivalent results. Findings exclude the expression of an opinion or a conclusion as well as any recommendations that the practitioner may make.

A13. Practitioners may use the term “factual findings” in place of “findings”, for example, in cases when the practitioner is concerned that the term “findings” may be misunderstood. This may be the case in jurisdictions or languages where the term “findings” may be understood as including results that are not factual.

Relevant Ethical Requirements (Ref: Para. 17)

Objectivity and Independence

A14. A practitioner performing an agreed-upon procedures engagement is required to comply with relevant ethical requirements. Relevant ethical requirements ordinarily comprise the APESB Code, together with national requirements that are more restrictive. The APESB Code requires practitioners to comply with fundamental principles including objectivity, which requires practitioners not to compromise their professional or business judgement because of bias, conflict of interest or the undue influence of others. Accordingly, relevant ethical requirements to which the practitioner is subject would, at a minimum, require the practitioner to be objective when performing an agreed-upon procedures engagement.

A15. The APESB Code does not contain independence requirements for agreed-upon procedures engagements. However, national ethical codes, laws or regulations, other professional requirements, or conditions of a contract, program, or arrangement relating to the subject matter for the agreed-upon procedures engagement may specify requirements pertaining to independence.

*Non-Compliance with Laws and Regulations*³

A16. Law, regulation or relevant ethical requirements may:

- (a) Require the practitioner to report identified or suspected non-compliance with laws and regulations to an appropriate authority outside the entity.
- (b) Establish responsibilities under which reporting to an appropriate authority outside the entity may be appropriate in the circumstances.⁴

A17. Reporting identified or suspected non-compliance with laws and regulations to an appropriate authority outside the entity may be required or appropriate in the circumstances because:

- (a) Law, regulation or relevant ethical requirements require the practitioner to report;
- (b) The practitioner has determined reporting is an appropriate action to respond to identified or suspected non-compliance in accordance with relevant ethical requirements; or

³ Relevant ethical requirements may indicate that non-compliance with laws and regulations includes fraud. See, for example, 360.5 A2 of the APESB Code.

⁴ See, for example, paragraphs R360.36 to 360.36A3 of the APESB Code.

Standard on Related Services ASRS 4400
Agreed-Upon Procedures Engagements

- (c) Law, regulation or relevant ethical requirements provide the practitioner with the right to do so.
- A18. The practitioner is not expected to have a level of understanding of laws and regulations beyond that necessary to be able to perform the agreed-upon procedures engagement. However, law, regulation or relevant ethical requirements may expect the practitioner to apply knowledge, professional judgement and expertise in responding to identified or suspected non-compliance. Whether an act constitutes actual non-compliance is ultimately a matter to be determined by a court or other appropriate adjudicative body.
- A19. In some circumstances, the reporting of identified or suspected non-compliance with laws and regulations to an appropriate authority outside the entity may be precluded by the practitioner's duty of confidentiality under law, regulation or relevant ethical requirements. In other cases, reporting identified or suspected non-compliance to an appropriate authority outside the entity would not be considered a breach of the duty of confidentiality under the relevant ethical requirements.⁵
- A20. The practitioner may consider consulting internally (e.g., within the firm or network firm), obtaining legal advice to understand the professional or legal implications of taking any particular course of action, or consulting on a confidential basis with a regulator or a professional body (unless doing so is prohibited by law or regulations or would breach the duty of confidentiality).⁶

Professional Judgement (Ref: Para. 18)

- A21. Professional judgement is exercised in applying the requirements of this ASRS and relevant ethical requirements, and in making informed decisions about courses of action throughout the agreed-upon procedures engagement, as appropriate.
- A22. In accepting, conducting and reporting on an agreed-upon procedures engagement, professional judgement is exercised, for example, in:
- Accepting the engagement
- Discussing and agreeing with the engaging party (and if relevant, other parties) the nature, timing and extent of the procedures to be performed (taking into account the purpose of the engagement).
 - Determining whether engagement acceptance and continuance conditions have been met.
 - Determining the resources necessary to carry out the procedures as agreed in the terms of the engagement, including the need to involve a practitioner's expert.
 - Determining appropriate actions if the practitioner becomes aware of facts or circumstances suggesting that the procedures to which the practitioner is being asked to agree are inappropriate for the purpose of the agreed-upon procedures engagement.
- Conducting the engagement
- Determining appropriate actions or responses if, when performing the agreed-upon procedures, the practitioner becomes aware of:

⁵ See, for example, paragraphs R114.1, 114.1 A1 and R360.37 of the APESB Code.

⁶ See, for example, paragraph 360.39 A1 of the APESB Code.

Agreed-Upon Procedures Engagements

- Matters that may indicate fraud or an instance of non-compliance or suspected non-compliance with laws or regulations.
- Other matters that cast doubt on the integrity of the information relevant to the agreed-upon procedures engagement or that indicate that the information may be misleading.
- Procedures that cannot be performed as agreed.

Reporting on the engagement

- Describing the findings in an objective manner and in sufficient detail, including when exceptions are found.

A23. In conducting the agreed-upon procedures engagement, the need for the practitioner to exercise professional judgement when performing the agreed-upon procedures is limited for reasons including:

- An agreed-upon procedures engagement involves the performance of procedures that have been agreed upon by the practitioner and the engaging party, where the engaging party has acknowledged that the procedures performed are appropriate for the purpose of the engagement.
- The agreed-upon procedures and the findings that result from performing those procedures are capable of being described objectively, in terms that are clear, not misleading, and not subject to varying interpretations.
- The findings are capable of being objectively verified, which means that different practitioners performing the same procedures are expected to arrive at equivalent results.

Engagement Level Quality Control (Ref: Para. 19–20)

A24. The actions of the engagement partner and appropriate messages to the other members of the engagement team, in taking responsibility for the overall quality on each engagement, emphasise the importance to achieving the quality of the engagement of:

- (a) Performing work that complies with professional standards and regulatory and legal requirements;
- (b) Complying with the firm's quality control policies and procedures as applicable; and
- (c) Issuing the practitioner's report for the engagement in accordance with this ASRS.

A25. ASQC1 requires the firm to obtain such information as it considers necessary in the circumstances before accepting an engagement with a new client, when deciding whether to continue an existing engagement, and when considering acceptance of a new engagement with an existing client. Information that assists the engagement partner in determining whether acceptance or continuance of client relationships and agreed-upon procedures engagements is appropriate may include information concerning the integrity of the principal owners, key management and those charged with governance. If the engagement partner has cause to doubt management's integrity to a degree that is likely to affect proper performance of the engagement, it may not be appropriate to accept the engagement.

A26. ASQC1 sets out the responsibilities of the firm for establishing policies and procedures designed to provide it with reasonable assurance that the firm and its personnel comply with relevant ethical requirements. This ASRS sets out the engagement partner's responsibilities with respect to the engagement team's compliance with relevant ethical requirements.

Standard on Related Services ASRS 4400
Agreed-Upon Procedures Engagements

A27. If the practitioner is unable to meet the requirement in paragraph 20, it may be appropriate for the practitioner to agree with the engaging party to limit the scope of the agreed-upon procedures engagement to procedures for which the practitioner can appropriately take responsibility. The engaging party may separately engage an expert to perform the other procedures.

Engagement Acceptance and Continuance (Ref: Para. 21–23)

A28. In obtaining an understanding of the purpose of the agreed-upon procedures engagement, the practitioner may become aware of indications that the procedures the practitioner is asked to perform are inappropriate for the purpose of the agreed-upon procedures engagement. For example, the practitioner may be aware of facts or circumstances that indicate:

- The procedures are selected in a manner intended to bias the intended users' decision-making.
- The subject matter on which the agreed-upon procedures are performed is unreliable.
- An assurance engagement or advisory service may better serve the needs of the engaging party or other intended users.

A29. Other actions that may satisfy the practitioner that the conditions in paragraphs 21 and 22 are met include:

- Comparing the procedures to be performed with written requirements set out, for example, in law or regulation, or in a contractual agreement (sometimes referred to as the "Terms of Reference"), where appropriate.
- Requesting the engaging party to:
 - Distribute a copy of the anticipated procedures and the form and content of the agreed-upon procedures report as set out in the terms of engagement to the intended user(s).
 - Obtain acknowledgement from the intended user(s) of the procedures to be performed.
 - Discuss the procedures to be performed with appropriate representatives of the intended user(s).
- Reading correspondence between the engaging party and other intended user(s) if the engaging party is not the only intended user.

A30. If the conditions in paragraphs 21 and 22 are not met, it is unlikely that an agreed-upon procedures engagement is able to meet the needs of the engaging party or other intended users. In such circumstances, the practitioner may suggest other services, such as an assurance engagement, that may be more appropriate.

A31. All the conditions in paragraphs 21 and 22 also apply to procedures that have been added or modified during the course of the engagement.

Descriptions of Agreed-Upon Procedures and Findings (Ref: Para. 22 (c))

A32. The procedures to be performed during the agreed-upon procedures engagement may be prescribed by law or regulation. In some circumstances, law or regulation may also prescribe the way the procedures or findings are to be described in the agreed-upon procedures report. As set out in paragraph 22(c), a condition of accepting an agreed-upon procedures engagement is that the practitioner has determined that the agreed-upon procedures and findings can be

described objectively, in terms that are clear, not misleading, and not subject to varying interpretations.

- A33. Agreed-upon procedures are described objectively, in terms that are clear, not misleading, and not subject to varying interpretations. This means that they are described at a level of specificity sufficient for an intended user to understand the nature and extent and if applicable, the timing, of the procedures performed. It is important to recognise that any term could potentially be used in an unclear or misleading manner, depending on context or the absence thereof. Assuming that the terms are appropriate in the context in which they are used, examples of descriptions of actions that may be acceptable include:
- Confirm.
 - Compare.
 - Agree.
 - Trace.
 - Inspect.
 - Enquire.
 - Recalculate.
 - Observe.
- A34. Terms that may be unclear, misleading, or subject to varying interpretations depending on the context in which they are used, may include, for example:
- Terms that are associated with assurance under the AUASB’s Standards such as “present fairly” or “true and fair,” “audit,” “review,” “assurance,” “opinion,” or “conclusion.”
 - Terms that imply expression of an assurance opinion or conclusion such as “we certify,” “we verify,” “we have ascertained” or “we have ensured” with regard to the findings.
 - Unclear or vague phrases such as “we obtained all the explanations and performed such procedures as we considered necessary.”
 - Terms that are subject to varying interpretations such as “material” or “significant.”
 - Imprecise descriptions of procedures such as “discuss,” “evaluate,” “test,” “analyse” or “examine” without specifying the nature and extent, and if applicable, the timing, of the procedures to be performed. For example, using the word “discuss” may be imprecise without specifying with whom the discussion is held or the specific questions asked.
 - Terms that suggest that the findings do not reflect factual results such as “in our view,” “from our perspective” or “we take the position that.”
- A35. For example, a procedure such as “review cost allocations to determine if they are reasonable” is unlikely to meet the condition for terms to be clear, not misleading, or not subject to varying interpretations because:
- The term “review” may be misinterpreted by some users to mean that the cost allocation was the subject of a limited assurance engagement even though no such assurance is intended by the procedure.

Standard on Related Services ASRS 4400
Agreed-Upon Procedures Engagements

- The term “reasonable” is subject to varying interpretations as to what constitutes “reasonable.”
- A36. In circumstances when law or regulation specifies a procedure or describes a procedure using terms that are unclear, misleading, or subject to varying interpretations, the practitioner may satisfy the condition in paragraph 22(c) by, for example, requesting the engaging party to:
- Modify the procedure or the description of the procedure so that it is no longer unclear, misleading, or subject to varying interpretations.
 - If a term that is unclear, misleading or subject to varying interpretations cannot be amended, for example because of law or regulation, include a definition of the term in the agreed-upon procedures report.

Compliance with Independence Requirements (Ref: Para. 22(e), 24(e))

- A37. Paragraph 22(e) applies when the practitioner is required to comply with independence requirements for reasons such as those set out in paragraph A15. Paragraph 22(e) also applies when the practitioner agrees with the engaging party, in the terms of engagement, to comply with independence requirements. For example, the practitioner may have initially determined that the practitioner is not required by relevant ethical requirements, law or regulation, or other reasons to comply with independence requirements. However, when considering engagement acceptance and continuance or agreeing the terms of engagement, the practitioner’s knowledge of the following matters may indicate that a discussion with the engaging party as to whether compliance with certain identified independence requirements is appropriate for the purpose of the agreed-upon procedures engagement:
- The purpose of the agreed-upon procedures engagement;
 - The identity of the engaging party, other intended users and responsible party (if different from the engaging party);
 - The nature, timing and extent of the procedures to be performed; or
 - Other engagements that the practitioner is performing or has performed for the engaging party, other intended users or the responsible party (if different from the engaging party).
- A38. The practitioner may be the auditor of the financial report of the engaging party (or responsible party if different from the engaging party). In such a circumstance, if the practitioner is also engaged to conduct an agreed-upon procedures engagement, intended users of the agreed-upon procedures report may assume that the practitioner is independent for the purpose of the agreed-upon procedures engagement. Therefore, the practitioner may agree with the engaging party that the practitioner’s compliance with the independence requirements applicable to audits of financial report is appropriate for the purpose of the agreed-upon procedures engagement. In such a case, a statement that the practitioner is required to comply with such independence requirements is included in the terms of the engagement, in accordance with paragraph 24(e).

Agreeing the Terms of the Engagement (Ref: Para. 24–25)

A39. [Deleted by the AUASB . Refer Aus A39.1]

Aus A39.1 When relevant, additional matters may be included in the engagement letter, for example:

- Arrangements concerning the involvement of a practitioner’s expert in some aspects of the agreed-upon procedures engagement.

Standard on Related Services ASRS 4400
Agreed-Upon Procedures Engagements

- Any restrictions on the distribution of the agreed-upon procedures report.
- A40. An illustrative engagement letter for an agreed-upon procedures engagement is set out in Appendix 1.
- A41. The practitioner may agree with the engaging party that the procedures to be performed will include quantitative thresholds for determining exceptions. If so, these quantitative thresholds are included in the descriptions of the procedures in the terms of the engagement.
- A42. In some circumstances, law or regulation may prescribe only the nature of the procedures to be performed. In such circumstances, in accordance with paragraph 24(i), the practitioner agrees the timing and extent of procedures to be performed with the engaging party so that the engaging party has a basis to acknowledge that the procedures to be performed are appropriate for the purpose of the engagement.
- A43. In some circumstances, agreeing the terms of engagement and performing the agreed-upon procedures takes place in a linear and discrete manner. In other circumstances, agreeing the terms of engagement and performing the agreed-upon procedures is an iterative process, with changes to the agreed-upon procedures being agreed as the engagement progresses in response to new information coming to light. If procedures that have been previously agreed upon need to be modified, paragraph 25 requires the practitioner to agree the amended terms of engagement with the engaging party. The amended terms of engagement may, for example, take the form of an updated engagement letter, an addendum to an existing engagement letter, or other form of written acknowledgement.

Recurring Engagements (Ref: Para. 26)

- A44. The practitioner may decide not to send a new engagement letter or other written agreement for a recurring engagement. However, the following factors may indicate that it is appropriate to revise the terms of the engagement, or to remind the engaging party of the existing terms of the engagement:
- Any indication that the engaging party misunderstands the purpose of the agreed-upon procedures engagement or the nature, timing or extent of the agreed-upon procedures.
 - Any revised or special terms of the engagement, including any changes in the previously agreed-upon procedures.
 - A change in legal, regulatory or contractual requirements affecting the engagement.
 - A change in management or those charged with governance of the engaging party.

Performing the Agreed-Upon Procedures (Ref: Para. 28)

- A45. The practitioner may decide to request written representations in some circumstances, for example:
- If the agreed-upon procedures involve enquiries, the practitioner may request written representations on the responses that have been provided verbally.
 - If the engaging party is not the responsible party, the practitioner may agree with the engaging party to include, as an agreed-upon procedure, requests for written representations from the responsible party.

Using the Work of a Practitioner's Expert (Ref: Para. 29)

- A46. Using the work of a practitioner's expert may involve the use of an expert to assist the practitioner in:

Standard on Related Services ASRS 4400
Agreed-Upon Procedures Engagements

- Discussing with the engaging party the agreed-upon procedures to be performed. For example, a lawyer may provide suggestions to the practitioner on the design of a procedure to address legal aspects of a contract; or
- Performing one or more of the agreed-upon procedure(s). For example, a chemist may perform one of the agreed-upon procedures such as determining the toxin levels in a sample of grains.

A47. A practitioner's expert may be an external expert engaged by the practitioner or an internal expert who is part of the firm and therefore subject to the firm's system of quality control. The practitioner is entitled to rely on the firm's system of quality control, unless information provided by the firm or other parties suggests otherwise. The extent of that reliance will vary with the circumstances and may affect the nature, timing and extent of the practitioner's procedures with respect to matters such as:

- Competence and capabilities, through recruitment and training programs.
- The practitioner's evaluation of the objectivity of the practitioner's expert.
- Agreement with the practitioner's expert.

Such reliance does not reduce the practitioner's responsibility to meet the requirements of this ASRS.

A48. If the practitioner's expert is performing one or more of the agreed-upon procedure(s), the agreement of the nature, scope and objectives of that expert's work as required by paragraph 29(b) includes the nature, timing and extent of the procedure(s) to be performed by the practitioner's expert. In addition to the matters required by paragraph 29(b), it may be appropriate for the practitioner's agreement with the practitioner's expert to include matters such as the following:

- (a) The respective roles and responsibilities of the practitioner and that expert;
- (b) The nature, timing and extent of communication between the practitioner and that expert, including the form of any report to be provided by that expert; and
- (c) The need for the practitioner's expert to observe confidentiality requirements.

A49. The matters noted in paragraph A47 may affect the level of detail and formality of the agreement between the practitioner and the practitioner's expert, including whether it is appropriate that the agreement be in writing. The agreement between the practitioner and the practitioner's external expert is often in the form of an engagement letter.

A50. When the work of a practitioner's expert is to be used, it may be appropriate to perform some of the procedures required by paragraph 29 at the engagement acceptance or continuance stage.

The Agreed-Upon Procedures Report (Ref: Para. 30–33)

A51. Appendix 2 contains illustrations of agreed-upon procedures reports.

Subject Matter on which the Agreed-Upon Procedures Are Performed (Ref: Para. 30(c))

A52. If applicable, to avoid misunderstanding, the practitioner may wish to clarify that the agreed-upon procedures report does not extend to information beyond subject matters on which the agreed-upon procedures are performed. For example, if the practitioner was engaged to perform agreed-upon procedures on an entity's accounts receivable and inventory, the practitioner may wish to include a statement that the agreed-upon procedures report relates only to these accounts and does not extend to the entity's financial report taken as a whole.

Standard on Related Services ASRS 4400
Agreed-Upon Procedures Engagements

Purpose of the Agreed-Upon Procedures Report (Ref: Para. 30(d))

A53. [Deleted by the AUASB. Refer Aus A53.1]

Aus A53.1 In addition to the statement required by paragraph 30(d) and paragraph Aus 30(s), the practitioner may consider it appropriate to restrict the distribution of the agreed-upon procedures report. Agreement with the engaging party(ies) regarding acceptable distribution may be reflected in the terms of the engagement.

A54. [Deleted by the AUASB. Refer Aus A54.1]

Aus A54.1 Factors that the practitioner may consider in deciding whether to restrict the distribution of the agreed-upon procedures report include, for example, whether:

- There is an elevated risk of users other than the intended users misunderstanding the purpose of the agreed-upon procedures engagement or misinterpreting the findings.
- The agreed-upon procedures are designed solely for the use of internal users such as management and those charged with governance of the engaging party.
- The agreed-upon procedures or findings involve confidential information.

Agreed-Upon Procedures and Findings (Ref: Para. 30(n)–30(o))

A55. If the practitioner is unable to describe the agreed-upon procedures or findings without including confidential or sensitive information, the practitioner may consider:

- Consulting internally (for example, within the firm or network firm);
- Consulting externally (for example, with the relevant professional body or another practitioner); or
- Obtaining legal advice,
- to understand the professional or legal implications of taking any particular course of action.

A56. There may be circumstances when the fact that previously agreed-upon procedures have not been performed or have been modified is important to the intended users' consideration of the agreed-upon procedures and findings. For example, this may be the case when the procedures are set out in law or regulation. In such circumstances, the practitioner may identify, in the agreed-upon procedures report, the procedures agreed in the original terms of the engagement which could not be performed or were modified, and why that has arisen.

A57. The practitioner may refer to the date when the agreed-upon procedures were agreed in the terms of the engagement.

Reference to Practitioner's Expert (Ref: Para. 31)

A58. In some circumstances, law or regulation may require a reference, in the agreed-upon procedures report, to a practitioner's expert who performed any of the agreed-upon procedures. For example, such a reference may be required for the purposes of transparency in the public sector. The practitioner may also consider it appropriate in other circumstances, for example, when referring to the practitioner's expert when describing the agreed-upon procedures. Nonetheless, the practitioner has sole responsibility for the findings included in the agreed-upon procedures report, and that responsibility is not reduced by the use of the practitioner's expert. It is important therefore that if the agreed-upon procedures report refers to the practitioner's expert, the report does not imply that the practitioner's responsibility is reduced because of the reference to the practitioner's expert.

Undertaking an Agreed-Upon Procedures Engagement Together with Another Engagement (Ref: Para. 34)

A59. A practitioner may be requested to perform other engagements together with the agreed-upon procedures engagement, such as providing recommendations arising from the agreed-upon procedures engagement. Such requests may take the form of one request for the practitioner to perform agreed-upon procedures and make recommendations, and the terms of the various engagements may be set out in a single engagement letter. To avoid misunderstanding, paragraph 34 requires that the agreed-upon procedures report be clearly distinguished from the reports of other engagements. For example, the recommendations may be:

- Provided in a separate document from the agreed-upon procedures report; or
- Included in a document that contains both the agreed-upon procedures report and recommendations but the recommendations are clearly differentiated from the agreed-upon procedures report, for example, by including the agreed-upon procedures report and the recommendations in separate sections of the document.

Documentation (Ref: Para. 35)

A60. Documentation of the nature, timing and extent of the agreed-upon procedures performed may include a record of, for example:

- The identifying characteristics of the subject matter(s) on which the agreed-upon procedures are performed. Identifying characteristics will vary depending on the nature of the agreed-upon procedure and the subject matter(s) on which the agreed-upon procedure is performed. For example:
 - For a procedure on purchase orders, the practitioner may identify the documents selected by their dates and unique purchase order numbers.
 - For a procedure requiring selection of all items over a specific amount from a given population, the practitioner may record the scope of the procedure and identify the population (for example, all journal entries over a specified amount from the journal register for a specific period, all timesheets for hours recorded over a certain number for specified months or every tenth item on a specific list).
 - For a procedure requiring enquiries of specific personnel, the practitioner may record the dates of the enquiries, the names and job designations of the personnel and the specific enquiries made.
 - For an observation procedure, the practitioner may record the process or matter being observed, the relevant individuals, their respective responsibilities, and where and when the observation was carried out.
- Who performed the agreed-upon procedures and the date such procedures were performed.
- Who reviewed the agreed-upon procedures performed, and the date and extent of such review.

Illustrative Engagement Letter for an Agreed-Upon Procedures Engagement

The following is an example of an engagement letter for an agreed-upon procedures engagement that illustrates the relevant requirements and guidance contained in this ASRS. This letter is not authoritative and is intended only to be a guide that may be used in conjunction with the considerations outlined in this ASRS. It will need to be adapted according to the requirements and circumstances of individual agreed-upon procedures engagements. It is drafted to refer to an agreed-upon procedures engagement for a single reporting period and would require adaptation if intended or expected to apply to a recurring engagement as described in this ASRS. It may be appropriate to seek legal advice that any proposed letter is suitable.

To [Engaging Party]

You have requested that we perform an agreed-upon procedures engagement on the procurement of [xyz] products. This letter is to confirm our understanding of the terms and objectives of our engagement and the nature and limitations of the services that we will provide. Our engagement will be conducted in accordance with the Australian Standard on Related Services ASRS 4400, *Agreed-Upon Procedures Engagements*. In performing the agreed-upon procedures engagement, we will comply with [describe the relevant ethical requirements], which does not require us to be independent / In performing the agreed-upon procedures engagement, we will comply with [describe the relevant ethical requirements], including the independence requirements^{7,8,9} of [describe the relevant independence requirements].

An agreed-upon procedures engagement performed under ASRS 4400 involves our performing the procedures agreed with you, and communicating the findings in the agreed-upon procedures report. Findings are the factual results of the agreed-upon procedures performed. You [and if relevant, other parties] acknowledge that the procedures are appropriate for the purpose of the engagement. We make no representation regarding the appropriateness of the procedures. This agreed-upon procedures engagement will be conducted on the basis that [Responsible Party] is responsible for the subject matter on which the agreed-upon procedures are performed. Further, this agreed-upon procedures engagement is not an assurance engagement. Accordingly, we do not express an opinion or an assurance conclusion.

⁷ For example, where independence is required or agreed to, if the APESB Code is the relevant ethical requirements and Part 4A of the APESB Code (independence for audit and review engagements) is the relevant independence requirements, this sentence may be worded along the following: "In performing the agreed-upon procedures engagement, we will comply with the ethical requirements of the Accounting Professional & Ethical Standards Board *Code of Ethics for Professional Accountants (including Independence Standards)* (APESB Code), including independence requirements in Part 4A of the APESB Code."

⁸ For example, where independence is required or agreed to, if the APESB Code is the relevant ethical requirements and Part 4B of the APESB Code (independence for other assurance engagements) is the relevant independence requirements, this sentence may be worded along the following: "In performing the agreed-upon procedures engagement, we will comply with the ethical requirements of the Accounting Professional & Ethical Standards Board *Code of Ethics for Professional Accountants (including Independence Standards)* (APESB Code), including independence requirements in Part 4B of the APESB Code."

⁹ For example, where independence is required or agreed to, if the IESBA Code is the relevant ethical requirements and Part 4A of the IESBA Code is the relevant independence requirements, this sentence may be worded along the following: "In performing the agreed-upon procedures engagement, we will comply with the ethical requirements of the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA Code) and the independence requirements in Part 4A of the IESBA Code."

The procedures that we will perform are solely for the purpose of assisting you in determining whether your procurement of [xyz] products is compliant with your procurement policies.¹⁰ Accordingly, our report will be addressed to you and our report may not be suitable for another purpose.

We have agreed to perform the following procedures and report to you the findings resulting from our work:

- Obtain from management of [Engaging Party] a listing of all contracts signed between [January 1, 20X1] and [December 31, 20X1] for [xyz] products (“listing”) and identify all contracts valued at over \$25,000.
- For each identified contract valued at over \$25,000 on the listing, compare the contract to the records of bidding and determine whether each contract was subject to bidding by at least 3 contractors from [Engaging Party]’s “Pre-qualified Contractors List.”
- For each identified contract valued at over \$25,000 on the listing, compare the amount payable per the signed contract to the amount ultimately paid by [Engaging Party] to the contractor and determine whether the amount ultimately paid is the same as the agreed amount in the contract.

The procedures are to be performed between [Date] and [Date].

Our Agreed-Upon Procedures Report

As part of our engagement, we will issue our report, which will describe the agreed-upon procedures and the findings of the procedures performed [insert appropriate reference to the expected form and content of the agreed-upon procedures report]. Illustrations of Agreed-Upon Procedures Reports

For purposes of this illustrative agreed-upon procedures report, the following circumstances are assumed:

- The engaging party is the addressee and the only intended user. The engaging party is not the responsible party. For example, the regulator is the engaging party and intended user, and the entity overseen by the regulator is the responsible party.
- No exceptions were found.
- The practitioner did not engage a practitioner's expert to perform any of the agreed-upon procedures.
- There is a restriction on the use of the report.
- There are no independence requirements with which the practitioner is required to comply.
- A quantitative threshold of \$100 for reporting exceptions in Procedure 3 has been agreed with the engaging party.

To [Addressee]

Purpose of this Agreed-Upon Procedures Report and Restriction on Use

Our report is solely for the purpose of assisting [Engaging Party] in determining whether its procurement of [xyz] products is compliant with its procurement policies and may not be suitable for another purpose. As required by ASRS 4400, use of this report is restricted to [individual(s), organisation(s), or group(s) that the practitioner expects will use this report]. Accordingly, we expressly disclaim and do not accept any responsibility or liability to any party other than [company full name and intended users] for any consequences of reliance on this report for any purpose.

Responsibilities of the Engaging Party and the Responsible Party

[Engaging Party] has acknowledged that the agreed-upon procedures are appropriate for the purpose of the engagement.

[Responsible Party], as identified by [Engaging Party], is responsible for the subject matter on which the agreed-upon procedures are performed.

2	<p>For each identified contract valued at over \$25,000 on the listing, compare the contract to the records of bidding and determine whether the contract was subject to bidding by at least 3 contractors from [Engaging Party]’s “Pre-qualified Contractors List.” For records of bidding that were submitted in [foreign language], translate the records of bidding with the assistance of a translator engaged by the practitioner before performing the comparison.</p>	<p>We inspected the records of bidding related to the 37 contracts valued at over \$25,000.
