## PREFACE

## Reasons for Issuing Standard on <u>Related Services</u> 4400

The Auditing and Assurance Standards Board (AUASB) makes Auditing Standards under section 336 of the *Corporations Act 2001* for the purposes of the corporations legislation and formulates auditing and assurance standards for other purposes.

The AUASB issues ED 03/10 Standard on <u>Related Services</u> ASAEASRS 4400 Agreed-Upon Procedures <u>Engagements</u> to Report Factual Findings for comment-pursuant to the requirements of the legislative provisions explained below.

The Corporate Law Economic Reform Program (Audit Reform and Corporate Disclosure) Act 2004 (the CLERP 9 Act) established the AUASB as an independent statutory body under section 227A of the Australian Securities and Investments Commission Act 2001 (ASIC Act), as from 1 July 2004. Under section 227B of the ASIC Act the AUASB may formulate Assurance Standards for other purposes.

ASRS 4400 conforms with ISRS 4400 *Engagements to Perform Agreed-upon Procedures Regarding Financial Information*, issued by the International Auditing and Assurance Standards Board of the International Federation of Accountants. Differences between this Standard on Related Services and ISRS 4400 are noted in the conformity statement following the application material in the standard.

## **Main Features**

This Standard on <u>Assurance Engagements-Related</u> Services (<u>ASAEASRS</u> 4400) establishes mandatory Requirements and provides Application and Other Explanatory material for assurance practitioners when accepting, undertaking and reporting on <u>assurance</u>-engagements to conduct agreed-upon <u>assurance</u>-procedures.

## Main Changes from AUS 904 Engagements to Perform Agreed-upon Procedures (July 2002)

The main differences between this Standard on Assurance Engagements ASAE <u>ASRS</u>\_4400 and the Auditing Standard issued by the Auditing and Assurance Standards Board of the Australian Accounting Research Foundation that it supersedes, AUS 904 Engagements to Perform Agreedupon Procedures (July 2002), are included in the Table of Differences provided as an attachment to this Exposure Draft.

### **Request for Comments**

Comments are invited on this Exposure Draft of the proposed ASAE <u>ASRS</u> 4400 by no later than 8 February 2011. In addition, respondents are asked to consider and respond to the following questions:

- 6 -

**ASRS 4400** 

What, if any, are the additional significant costs to/benefits for 1 assurance practitioners and the business community for compliance with this proposed AS? Are there any significant public interest matters that constituents wish to raise? Will adherence to the independence requirements applicable to 3 Other Assurance Engagements present any additional costs for assurance practitioners? Will these costs, if any, be passed on to the business community? Will the term "assurance procedures" be properly understood by stakeholders as not providing assurance when conducted in an agreed-upon assurance engagement? Is it likely to be confused with the provision of assurance? Does the practitioner merely exercise professional competence and skill in conducting the procedures agreed, as currently drafted, or does the practitioner also need to exercise professional judgement to conduct agreed procedures, as they would in an audit or review? In an agreed-upon assurance procedures engagement, as currently drafted, the assurance practitioner does not assess: <del>(a)</del> the adequacy of the procedures to be conducted; risk; or (h)the findings. <del>(c)</del> Do you consider any of these matters need to be assessed? If so, under what circumstances? 7 Do the factual findings reported constitute a conclusion provided by the practitioner? If a user relies on the factual findings reported is this based on: the practitioner's competence and skill in conducting the <del>(a)</del> procedures (as currently drafted); or assurance provided by the practitioner? If so, how is the <del>(b)</del> level of assurance defined?

-7- AUDITING STANDARD

The AUASB would prefer that respondents express a clear overall opinion on whether the proposed ASAE <u>ASRS</u> 4400, as a whole, is supported and that this opinion be supplemented by detailed comments, whether supportive or eritical, on any matter. The AUASB regards both critical and supportive comments as essential to a balanced review of the proposed ASAE <u>ASRS</u> 4400.

Agreed-upon Assurance Procedures Engagements to Report Factual Findings

#### Application

This Standard on <u>Assurance EngagementsRelated Services</u> (<u>ASAEASRS</u>) applies to agreed-upon <u>assurance</u>-procedures engagements to be conducted by an assurance practitioner, where factual findings are reported but no conclusion or opinion is expressed and no <u>explicit</u> assurance is provided by the assurance practitioner. The intended users draw their own conclusions based on the factual findings reported combined with any other information they have obtained.

This Standard on Assurance Engagements may also be applied, as appropriate, to agreed-upon assurance procedures engagements to be conducted by a practitioner other than an assurance practitioner.

ASAE 4400<u>This Standard</u> is operative for agreed-upon assurance procedures engagements commencing on or after 1 July 2011.

## Introduction

An agreed-upon assurance procedures engagement involves the conduct of assurance procedures of an assurance nature from which no conclusion or opinion is expressed by the assurance practitioner and no assurance is provided explicitly to intended users. Instead only factual findings obtained as a result of the procedures conducted are reported.

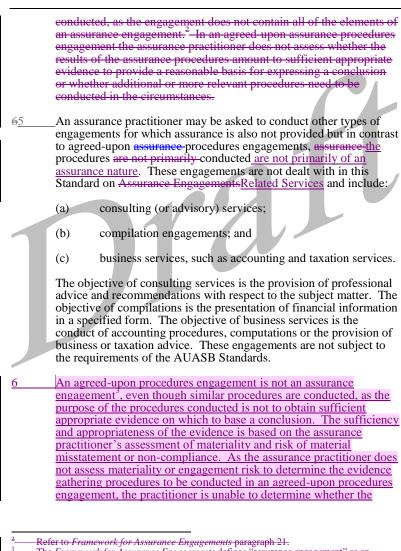

5 An agreed-upon assurance procedures engagement is not an assurance engagement<sup>4</sup> per se, even though assurance procedures are

The Framework for Assurance Engagements defines "assurance engagement" as an engagement in which an assurance practitioner expresses a conclusion designed to enhance the degree of confidence of the intended users other than the responsible party about the outcome of the evaluation or measurement of a subject matter against criteria.

		skills of the assurance practitioner, an agreed-upon assurance procedures engagement may be misunderstood as providing assurance. The <i>Framework for Assurance Engagements</i> <sup>4</sup> states that the assurance practitioner should clearly distinguish a report on an engagement that is not an assurance engagement from an assurance report. ASAE 4400 This Standard deals with the content of a report of factual findings in order to differentiate it from an assurance report.	
	10	ASAE 4400This Standard deals with how the form, content and restrictions on distribution of an assurance practitioner's report of factual findings helps to minimise misinterpretation and promote the <u>intended</u> user's understanding of that report.	
ļ	Objec	tive of the Assurance Practitioner	
	Ш	The objective of the assurance practitioner in an agreed-upon assurance-procedures engagement is to apply their professional capabilities and competence to in carrying out procedures of an assurance nature, to which the assurance practitioner, the engaging party and any third party (as applicable) have agreed and to report factual findings, without providing assurance or implying that assurance has been provided, and to report factual findings.	
	Defini	tions	
	12	Assurance practitioner means a person or an organisation, whether in public practice, industry, commerce or the public sector, providing assurance services. <sup>5</sup>	
	13	Assurance pProcedures of an assurance nature means procedures conducted by an assurance practitioner to evaluate or measure the subject matter against criteria which are the same or similar to procedures conducted in an assurance engagement. Assurance procedures may include tests of controls or substantive procedures.

Ethical Requirements Relating to an Agreed-upon Assurance Procedures Engagement (Ref: Para. 14-16)

A1. The ethical requirements, including independence, applicable to Other Assurance Engagements are applicable to agreed upon assurance procedures engagements as these engagements require the conduct of assurance procedures resulting in factual findings on which the intended users are entitled to rely. The relevant ethical requirements are defined in ASA 102 Compliance with Ethical Requirements when Performing Audits, Reviews and Other Assurance Engagements<sup>10</sup>.

The ethical requirements permit the independence requirements to A2. be modified, if the intended users of the assurance practitioner's report are knowledgeable as to the purpose, subject matter information and limitations of the report and explicitly agree to the application of the modified independence requirements. --In these circumstances, the report of factual findings is to include a restriction on use and distribution to the intended users only, which is already included in reports of factual findings. If modified independence requirements are adopted in the terms of the engagement, but the intended users include a class of users who are not party to the terms of the engagement, they are required to be made aware of the modified independence requirements, such as by reference to them in the report of factual findings. In any case the independence of the assurance practitioner and the engagement team will need to be assessed.

A3. ASQC 1 <u>also</u> deals with the firm's responsibilities to establish and maintain its system of quality control for Other Assurance Engagements.

Acceptance of an Agreed-upon Assurance Procedures Engagement (Ref: Para. 17-22 $\theta$ )

<u>A4.</u> The assurance practitioner needs to understand the engaging party's objectives in engaging the assurance practitioner to ensure that an engagement appropriate to those objectives is agreed and to avoid any misunderstandings with respect to the scope of the engagement.

	A6.	The assurance practitioner is not precluded from accepting an
	1	agreed-upon assurance procedures engagement if some elements of an assurance engagement, provided in the <i>Framework for Assurance</i> <i>Engagements</i> , are met, with the exception of a written assurance report. The relevance of the elements of an assurance engagement to an agreed-upon assurance procedures engagement are:
		• A three party relationship: An agreed-upon assurance procedures engagement may involve a three party relationship but is not required to do so.
I		• An appropriate subject matter: the assurance practitioner does not assess the appropriateness of the subject matter in an agreed-upon assurance procedures engagement. Information, which is to be subjected to the agreed procedures, does need to be identifiable so that it may be subjected to the agreed procedures.
		• Suitable criteria: whilst the procedures to be conducted may involve evaluation or measurement of the information against criteria, the suitability of the criteria do not need to be assessed by the assurance practitioner as conclusions are not drawn from the procedures.
1		• Sufficient appropriate evidence: the assurance practitioner provides factual findings only and does not assess the sufficiency or appropriateness of the evidence as they do not draw any conclusions from the findings. If <u>intended</u> users wish to draw conclusions they assess for themselves

**ASRS 4400** 

- 25 - AUDITING STANDARD

the sufficiency and appropriateness of the evidence which

the findings provide on their own or in combination with other available evidence.

- A7. If all of the elements of an assurance engagement are met the assurance practitioner declines an agreed-upon assurance-procedures engagement, however an assurance engagement may be accepted and applicable AUASB Standards applied. Appendix 1 provides a table of Differentiating factors between agreed-upon procedures engagements and assurance engagements to assist the assurance practitioner in determining whether the engagement is an agreedupon assurance procedures engagement or an assurance engagement. A8. The extent of the subject matter does not affect whether an engagement is an assurance engagement or not. Even if the subject matter of an engagement is very specific, when the engagement contains the elements of an assurance engagement, the assurance practitioner complies with the requirements of either: ASA 805 Special Considerations – Audits of Single Financial Statements and Specific Elements, Accounts or (a) Items of a Financial Statement when providing reasonable assurance on historical financial information other than a financial report; (b) ASA 2405 Review of Historical Financial Information
  - b) ASA 2405 *Review of Historical Financial Information Other than a Financial Report* when providing limited assurance on historical financial information other than a financial report; or
  - (c) ASAE 3000 Assurance Engagements Other than Audits or Reviews of Historical Financial Information when providing reasonable or limited assurance on matters other than historical financial information<sup>11</sup>.
  - Example engagements are described in Appendix 2 illustrating how an engagement could be scoped as an agreed-upon assurance procedures engagement or an assurance engagement for the same subject matter.
- A9. The assurance practitioner may assist the client and intended users in determining the assurance procedures to be conducted to ensure that the procedures are able to be conducted and are likely to meet the needs of the intended users. Nevertheless, the assurance practitioner

is not responsible for the adequacy of the agreed-upon assurance procedures nor for assessing whether the findings will be sufficient either alone or in combination with other evidence to support any conclusions which the users intend to draw. The assurance practitioner's role in an agreed-upon procedures engagement is to use their professional competence and capabilities to the conduct of the agreed-upon procedures effectively and to report the findings accurately. A10. If it is necessary for the assurance practitioner to conduct a risk assessment, respond to assessed risks or evaluate the evidence gathered then this indicates that the assurance practitioner is using their professional judgement to gather sufficient appropriate evidence to support a conclusion. In these circumstances the engagement is may be an assurance engagement and, if so, -the relevant requirements in the AUASB standards must need to be applied. Agreeing on the Terms of the Agreed-upon Assurance-Procedures Engagement (Ref: Para. 231-264) Matters to be agreed in an agreed-upon assurance-procedures A11. engagement include the: nature of the engagement, including the fact that the (a) procedures performed will not constitute <u>a reasonable or</u> limited assurance engagement <del>an audit or a review and that</del> accordingly no assurance will be expressed; (b) stated purpose for the engagement; identification of the subject matter to which the assurance (c) procedures will be applied; (d) nature, timing and extent of the specific procedures to be applied performed; (e) anticipated form of the report of factual findings; (f) identification of the intended users of the report including those who may not be parties to the terms of engagement, such as a regulator or bank; and limitations on distribution of the report of factual findings. (g) When such limitation would be in conflict with the legal **ASRS 4400** - 27 -**AUDITING STANDARD**

evidence to support a conclusion, provided in an assurance engagement.

Not all intended users may be available to agree to the terms of engagement or the agreed-upon assurance-procedures to be conducted. These intended users may still be specified in the letter of engagement where the assurance practitioner is satisfied that those users will understand the purpose for which the report of factual findings may is intended to be used. These intended users may include: regulators or industry bodies which issue requirements for (a) assurance procedures to be conducted and factual findings to be reported; and an identifiable class of users which are intended to receive (b)the report of factual findings for a specified purpose. <del>))<u>A</u>17</del> If alternative procedures are agreed during conduct of the engagement, the assurance practitioner documents the alternative procedures agreed and agrees amended terms of engagement in writing with the engaging parties prior to reporting on the factual findings. A18. In certain circumstances, for example when the procedures have been agreed to between the regulator, industry representatives and representatives of the accounting profession, the assurance practitioner may not be able to discuss the procedures with all the parties who will receive the report of factual findings. In such cases, the assurance practitioner may consider, for example, discussing the procedures to be applied with appropriate representatives of the parties involved, reviewing relevant correspondence from such parties or sending them a draft of the report of factual findings that will be issued. Planning (Ref: Para. 275-286) A19. Planning in an agreed-upon assurance-procedures engagement is restricted by the nature, timing and extent of assurance procedures as agreed in the terms of engagement. Therefore the assurance practitioner does not have the discretion to conduct alternative or additional procedures without obtaining the engaging party's agreement. Nevertheless, the assurance practitioner will still need to plan ascertain matters such as the nature, timing and extent of the resources necessary to perform to be used on the engagement and access to the entity's staff, premises, records and documentation.

A22. In an agreed-upon assurance procedures engagement, the user assesses the factual findings reported alone or in combination with other information to draw their own conclusion.

A2B.A22. Even though assurance is not provided by the assurance practitioner, the intended users are entitled to rely on the accuracy of the reported findings by virtue of the assurance practitioner's <u>capabilities and</u> competence <del>and skill</del> in conducting the agreed-upon <del>assurance</del> procedures. The report of factual findings needs to describe the

procedures conducted and findings in sufficient detail to enable the <u>intended</u> user to understand the nature, timing and extent of the work performed as well as the nature of the errors and exceptions identified. When the law or regulation prescribes the layout or wording of the assurance practitioner's report in a form or in terms that are significantly different from the requirements of <del>ASAE</del> 4400this Standard and the assurance practitioner considers that additional explanation in the report of factual findings cannot mitigate possible misunderstanding, the auditor may consider including a statement in the report of factual findings that the agreed-upon procedures engagement is not conducted in accordance with <del>ASAE</del> 4400this Standard.

The assurance practitioner's inability to conduct the agreed-upon assurance procedures may arise from:

- (a) circumstances beyond the control of the engaging party;
- (b) circumstances relating to the nature or timing of the auditor's assurance practitioner's work; or
- (c) limitations imposed by management of the engaging parties.

\_An illustrative example of a report of factual findings, incorporating the elements set forth in paragraphs  $\frac{39.4540-49}{40-49}$ , is set out in Appendix 4.

#### Conformity with International Standards on <u>Related</u> <u>Services</u>

Except as noted below, <u>ASAE\_ASRS</u> 4400 conforms with International Standard on Related Services ISRS 4400, issued by the International Auditing and Assurance Standards Board of the International Federation of Accountants. The main difference(s) between <u>ASAE\_ASRS</u> 4400 and ISRS 4400 are:

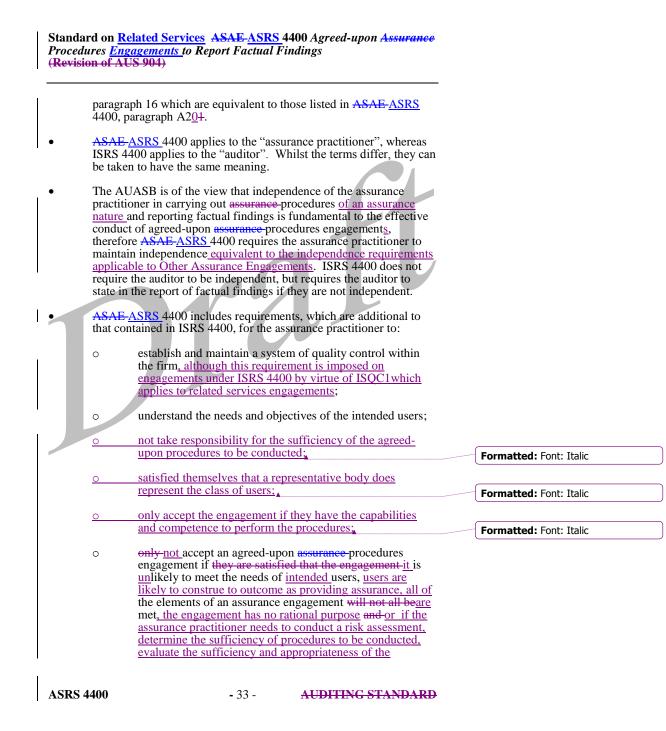

- <u>ASAE-ASRS</u> 4400 is not limited to procedures regarding "financial information" whereas ISRS 4400 is limited to financial information.
- <u>ASAE ASRS</u> 4400 applies to "<u>assurance procedures of an assurance</u> <u>nature</u>" whereas ISRS 4400 applies to "procedures of an audit nature". Whilst the terms differ, they can be taken to have the same meaning as indicated by the procedures listed in ISRS 4400

not assess the findings or provide a conclusion or opinion; 0 restrict use of the report to intended users; not to assert compliance with ASAE ASRS 4400 if the e requirements are not met; not issue a modified report or emphasis of matter but 0 instead report all errors or exceptions in the factual findings even if they are subsequently rectified; exclude wording from the report of factual findings which 0 may indicate that assurance is being provided; and states in the report of factual findings that the responsibility 0 for determining the adequacy of the agreed-upon assurance procedures is that of the engaging party. #### Example of an Engagement Letter for an Agreed-upon Assurance-Procedures Engagement

The following is an example of an engagement letter for an agreed-upon assurance procedures engagement prepared in accordance with ASAEASRS 4400. This letter is not authoritative but is intended only to be a guide that may be used in conjunction with the considerations outlined in this Standard on Assurance EngagementsRelated Services. It will need to be varied according to individual requirements and circumstances. It may be appropriate to seek legal advice that any proposed letter is suitable.

\*\*\*

To the appropriate representatives of management or those charged with governance of name of Entity [and name of other intended users <u>or class</u> <u>of users</u> as appropriate]:

[The objective and scope of the engagement]

You have requested that we conduct the agreed-upon assurance procedures specified below <u>[as required by [name of representative</u> <u>body or regulator]</u> to meet the needs of <u>[class of intended users]</u>. We are pleased to confirm our acceptance and understanding of this agreedupon assurance-procedures engagement and the nature and limitations of the procedures we will conduct. Our engagement will be conducted with the objective of reporting factual findings resulting from each procedure for the purpose of [specify purpose].

[The responsibilities of the assurance practitioner]

We will conduct our engagement in accordance with Standard on <u>Assurance EngagementsRelated Services</u> <u>ASAE ASRS</u> 4400 Agreedupon <u>Assurance</u>-Procedures <u>Engagements</u> to Report Factual Findings. That standard requires that we comply with ethical requirements <u>applicable equivalent</u> to Other Assurance Engagements<sup>12</sup>, including independence, and plan and perform the agreed procedures to obtain

factual findings. [If appropriate<sup>13</sup>: We will apply modified independence requirements agreed with you, which will consist of (describe level of independence to be applied).] The procedures which we will conduct will be restricted to those procedures agreed with you [which include procedures required by [name of representative body or regulator]] and listed below. Information acquired by us in the course of our engagement is subject to strict confidentiality requirements and will not be disclosed by us to other parties except as required or allowed for by law or professional standards, or with your express consent.

We have agreed to perform the following assurance procedures and report to you the factual findings resulting from our work:

> [describe the nature, timing and extent of each assurance procedure to be performed, including specific reference, where applicable, to the identity of documents and records to be read, individuals to be contacted and parties from whom confirmations will be obtained.]

If we are unable to conduct the exact nature, timing or extent of procedures agreed above but alternative procedures are available, we will only conduct these alternative procedures if modified terms of engagement are agreed with [name of engaging party and intended users].

[The responsibilities of management or those charged with governance and intended users (if appropriate)]

- Our agreed-upon assurance procedures will be conducted on the basis that [management and, where appropriate, those charged with governance and intended users] acknowledge and understand that:
  - they have responsibility for determining the adequacy or otherwise of the procedures agreed to be performed by us;
  - (b) they have responsibility for determining whether the factual findings provided by us, in combination with any other information obtained, provide a reasonable basis for any conclusions which you or the intended users wish to draw on the subject matter;
  - (c) they have responsibility to provide us with:

**Formatted:** Indent: Left: 0 cm, First line: 0 cm

<sup>&</sup>lt;sup>13</sup> Modified independence requirements are only permitted under the ethical requirements applicable to other assurance engagements if the intended users of the report (a) are knowledgeable as to the purpose, subject matter information and limitations of the report and (b) explicitly agree to the application of the modified independence requirements.

- (i) access to all information of which the directors and management are aware that is necessary for the conduct of the assurance-procedures agreed; and
- (ii) unrestricted access to persons within the entity from whom we require co-operation in order to conduct the assurance-procedures agreed.
- (d) the procedures we will perform are solely to assist you [and name of intended users] in (state purpose). Our report of factual findings is not to be used for any other purpose and is solely for your [and name of intended users'] information.
- (e) the procedures that we will perform will not constitute a reasonable or limited assurance engagement in accordance with AUASB Standards and, consequently, no assurance will be expressed.

We look forward to full co-operation with your staff during our engagement.

[Other relevant information]

[Insert other information, such as fee arrangements, billings and other specific terms as appropriate]

#### [Reporting]

Our report of factual findings will consist of a detailed listing of the assurance procedures conducted and our findings in relation to each procedure, including any errors or exceptions identified regardless of whether those errors or exceptions have since been rectified. Use of our report will be restricted to you [and [name of other intended users or class of users]] and all other parties will be excluded from using the report.

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our agreed-upon assurance-procedures engagement -including the specific procedures which we have agreed will be performed and our respective responsibilities.

Yours faithfully,

## Example of a Report of Factual Findings in Connection with Accounts Payable

REPORT OF FACTUAL FINDINGS

To [appropriate addressee]

## **Report of Factual Findings**

- We have performed the assurance procedures agreed with you and [name of any intended users party to the terms of engagement] to report factual findings for the purpose of assisting you [and [name of other intended users or class of intended users]] in assessing, in combination with other information obtained by you, the accuracy of accounts payable as at [date].
- The assurance procedures performed are detailed in the terms of the engagement of [date] and described below with respect to the accounts payable of [entity] as of [date], set forth in the attached schedules [describe and reference the schedules (not shown in this example)].

#### [Management / Those Charged with Governance]'s Responsibility for the Procedures Agreed

[Management / Those Charged with Governance and any intended users party to the terms of engagement] are responsible for the adequacy or otherwise of the procedures agreed to be performed by us. You and [name of other intended users or class of intended users] are responsible for determining whether the factual findings provided by us, in combination with any other information obtained, provide a reasonable basis for any conclusions which you or other intended users wish to draw on the subject matter.

#### Assurance Practitioner's Responsibility

Our responsibility is to report factual findings obtained from conducting the assurance procedures agreed. We conducted the engagement in accordance with Standard on Assurance Related Services Engagements ASAE ASRS 4400 Agreed-upon Assurance Procedures Engagements to Report Factual Findings. We have complied with the ethical requirements applicable equivalent to Other Assurance Engagements<sup>14</sup>, including independence [if

applicable: except that we applied modified independence requirements as agreed with you in the terms of the engagement consisting of (describe level of independence applied)].

Because the above procedures do not constitute either <u>a reasonable or limited</u> <u>assurance engagement an audit or a review</u>-in accordance with AUASB Standards, we do not express any conclusion and provide no assurance on the accounts payable of [entity] as of [date]. Had we performed additional procedures or had we performed an audit or a review of the accounts payable in accordance with AUASB Standards, other matters might have come to our attention that would have been reported to you.

# Factual Findings<sup>15</sup>
